Press Release

Video Streaming Services is awarded a multi-year video services contract by UC Davis

Contract covers all schools in the UC Davis System

Davis California, Tuesday February 17, 2015: Video Streaming Services Company has been awarded a multi-year contract to provide video creation and production services to all of the schools at The University of California Davis. This major award includes all the 192 graduate and undergraduate programs including all of the medical schools. This contract is the first of its kind to be awarded by the University of California System. Commensurate with this contract Video Streaming Services employees participated in the UC Davis brand training to ensure consistency in all video products created under this contract. This contract will expand the work that Video Streaming Services Company has performed for various institutions at UC Davis. George Hall, president of the firm stated, "We are very pleased to have been competitively selected for this important contract. It is recognition of our achievement of high standards in video production that our customers have come to expect. With expertise spanning the last 10 years in the video production field, we look forward to providing UC Davis a vast array of services and expertise"
